

# Voluntary safety information following the Safety Data Sheet format according to Regulation (EC) No. 1907/2006 (REACH)

Olive oil Ph.Eur., virgin

article number: **8873**  
Version: **2.0 en**  
Replaces version of: 14.04.2016  
Version: (1)

date of compilation: 14.04.2016  
Revision: 03.12.2019

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

|                                 |                                                                                               |
|---------------------------------|-----------------------------------------------------------------------------------------------|
| Identification of the substance | <b>Olive oil</b>                                                                              |
| Article number                  | 8873                                                                                          |
| Registration number (REACH)     | The substance does not require registration according to Regulation (EC) No 1907/2006 [REACH] |
| EC number                       | 232-277-0                                                                                     |
| CAS number                      | 8001-25-0                                                                                     |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|                         |                                                      |
|-------------------------|------------------------------------------------------|
| <b>Identified uses:</b> | laboratory chemical<br>laboratory and analytical use |
|-------------------------|------------------------------------------------------|

### 1.3 Details of the supplier of the safety data sheet

Carl Roth GmbH + Co KG  
Schoemperlenstr. 3-5  
D-76185 Karlsruhe  
Germany

**Telephone:** +49 (0) 721 - 56 06 0

**Telefax:** +49 (0) 721 - 56 06 149

**e-mail:** [sicherheit@carlroth.de](mailto:sicherheit@carlroth.de)

**Website:** [www.carlroth.de](http://www.carlroth.de)

Competent person responsible for the safety data sheet : Department Health, Safety and Environment

**e-mail (competent person)** : [sicherheit@carlroth.de](mailto:sicherheit@carlroth.de)

### 1.4 Emergency telephone number

Emergency information service **Poison Centre Munich: +49/(0)89 19240**

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

**Classification according to Regulation (EC) No 1272/2008 (CLP)**

This substance does not meet the criteria for classification in accordance with Regulation No 1272/2008/EC.

### 2.2 Label elements

**Labelling according to Regulation (EC) No 1272/2008 (CLP)**

not required

**Signal word** not required

### 2.3 Other hazards

There is no additional information.

Olive oil Ph.Eur., virgin

article number: 8873

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

|                   |           |
|-------------------|-----------|
| Name of substance | Olive oil |
| EC number         | 232-277-0 |
| CAS number        | 8001-25-0 |

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

#### General notes

Take off contaminated clothing.

#### Following inhalation

Provide fresh air. In all cases of doubt, or when symptoms persist, seek medical advice.

#### Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

Rinse cautiously with water for several minutes.

#### Following ingestion

Call a doctor if you feel unwell.

### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date

### 4.3 Indication of any immediate medical attention and special treatment needed

none

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

Co-ordinate fire-fighting measures to the fire surroundings  
foam, dry extinguishing powder, carbon dioxide (CO<sub>2</sub>), sand

#### Unsuitable extinguishing media

water

### 5.2 Special hazards arising from the substance or mixture

Combustible. Vapours may form explosive mixtures with air.

Olive oil Ph.Eur., virgin

article number: 8873

**Hazardous combustion products**

in case of fire and/or explosion do not breathe fumes

**5.3 Advice for firefighters**

Fight fire with normal precautions from a reasonable distance. Wear self-contained breathing apparatus.

## SECTION 6: Accidental release measures

**6.1 Personal precautions, protective equipment and emergency procedures**

**For non-emergency personnel**

Special danger of slipping by leaking/spilling product.

**6.2 Environmental precautions**

Keep away from drains, surface and ground water.

**6.3 Methods and material for containment and cleaning up**

**Advice on how to contain a spill**

Covering of drains.

**Advice on how to clean up a spill**

Wipe up with absorbent material (e.g. cloth, fleece). Clear contaminated areas thoroughly.

**Other information relating to spills and releases**

Place in appropriate containers for disposal.

**6.4 Reference to other sections**

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

## SECTION 7: Handling and storage

**7.1 Precautions for safe handling**

No special measures are necessary.

**Advice on general occupational hygiene**

Wash hands before breaks and after work.

**7.2 Conditions for safe storage, including any incompatibilities**

Keep container tightly closed. Protect against. : Direct light irradiation.

**Incompatible substances or mixtures**

Observe hints for combined storage.

**Consideration of other advice**

**• Ventilation requirements**

Use local and general ventilation.

**• Specific designs for storage rooms or vessels**

Recommended storage temperature: 15 – 25 °C.

**7.3 Specific end use(s)**

Olive oil Ph.Eur., virgin

article number: **8873**

No information available.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

#### National limit values

#### Occupational exposure limit values (Workplace Exposure Limits)

Data are not available.

### 8.2 Exposure controls

#### Individual protection measures (personal protective equipment)

##### Eye/face protection

Use safety goggle with side protection.

##### Skin protection

- **hand protection**

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374.

- **type of material**

NBR (Nitrile rubber)

- **material thickness**

>0,11 mm

- **breakthrough times of the glove material**

>480 minutes (permeation: level 6)

- **other protection measures**

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended.

##### Respiratory protection

Respiratory protection necessary at: Aerosol or mist formation. Type: A (against organic gases and vapours with a boiling point of > 65 °C, colour code: Brown).

##### Environmental exposure controls

Keep away from drains, surface and ground water.

Olive oil Ph.Eur., virgin

article number: 8873

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

|                 |                      |
|-----------------|----------------------|
| Physical state  | liquid (fluid)       |
| Colour          | yellow - light green |
| Odour           | characteristic       |
| Odour threshold | No data available    |

#### Other physical and chemical parameters

|                                         |                                                |
|-----------------------------------------|------------------------------------------------|
| pH (value)                              | (neutral)                                      |
| Melting point/freezing point            | not determined                                 |
| Initial boiling point and boiling range | >350 °C                                        |
| Flash point                             | >300 °C                                        |
| Evaporation rate                        | no data available                              |
| Flammability (solid, gas)               | not relevant (fluid)                           |
| <u>Explosive limits</u>                 |                                                |
| • lower explosion limit (LEL)           | this information is not available              |
| • upper explosion limit (UEL)           | this information is not available              |
| Explosion limits of dust clouds         | not relevant                                   |
| Vapour pressure                         | <1 hPa at 100 °C                               |
| Density                                 | 0,91 – 0,92 g/cm <sup>3</sup> at 20 °C         |
| Vapour density                          | This information is not available.             |
| Bulk density                            | Not applicable                                 |
| Relative density                        | Information on this property is not available. |
| <u>Solubility(ies)</u>                  |                                                |
| Water solubility                        | insoluble                                      |
| <u>Partition coefficient</u>            |                                                |
| n-octanol/water (log KOW)               | This information is not available.             |
| Auto-ignition temperature               | 340 °C                                         |
| Decomposition temperature               | no data available                              |
| Viscosity                               |                                                |
| • dynamic viscosity                     | 50 – 70 mPa s at 20 °C                         |
| Explosive properties                    | Shall not be classified as explosive           |
| Oxidising properties                    | none                                           |

### 9.2 Other information

|                                      |                                                                      |
|--------------------------------------|----------------------------------------------------------------------|
| Temperature class (EU, acc. to ATEX) | T2 (Maximum permissible surface temperature on the equipment: 300°C) |
|--------------------------------------|----------------------------------------------------------------------|

Olive oil Ph.Eur., virgin

article number: 8873

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

In case of warming: Vapours can form explosive mixtures with air.

### 10.2 Chemical stability

The material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

### 10.3 Possibility of hazardous reactions

No known hazardous reactions

### 10.4 Conditions to avoid

Keep away from open flames and hot surfaces. No smoking.

### 10.5 Incompatible materials

There is no additional information.

### 10.6 Hazardous decomposition products

Hazardous combustion products: see section 5.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

#### Acute toxicity

Shall not be classified as acutely toxic.

#### Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

#### Serious eye damage/eye irritation

Shall not be classified as seriously damaging to the eye or eye irritant.

#### Respiratory or skin sensitisation

Shall not be classified as a respiratory or skin sensitiser.

#### Summary of evaluation of the CMR properties

Shall not be classified as germ cell mutagenic, carcinogenic nor as a reproductive toxicant

#### • Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

#### • Specific target organ toxicity - repeated exposure

Shall not be classified as a specific target organ toxicant (repeated exposure).

#### Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

#### Symptoms related to the physical, chemical and toxicological characteristics

##### • If swallowed

data are not available

##### • If in eyes

data are not available

Olive oil Ph.Eur., virgin

article number: **8873**

• **If inhaled**

data are not available

• **If on skin**

data are not available

**Other information**

None

## SECTION 12: Ecological information

### 12.1 Toxicity

acc. to 1272/2008/EC: Shall not be classified as hazardous to the aquatic environment.

### 12.2 Process of degradability

Data are not available.

### 12.3 Bioaccumulative potential

Data are not available.

### 12.4 Mobility in soil

Data are not available.

### 12.5 Results of PBT and vPvB assessment

Data are not available.

### 12.6 Other adverse effects

Data are not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Consult the appropriate local waste disposal expert about waste disposal.

#### **Sewage disposal-relevant information**

Do not empty into drains.

### 13.2 Relevant provisions relating to waste

The allocation of waste identity numbers/waste descriptions must be carried out according to the EEC, specific to the industry and process.

### 13.3 Remarks

Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities. Please consider the relevant national or regional provisions.

Olive oil Ph.Eur., virgin

article number: **8873**

## SECTION 14: Transport information

- |             |                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                              |

## SECTION 15: Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**  
**Relevant provisions of the European Union (EU)**
- **Regulation 649/2012/EU concerning the export and import of hazardous chemicals (PIC)**  
Not listed.
  - **Regulation 1005/2009/EC on substances that deplete the ozone layer (ODS)**  
Not listed.
  - **Regulation 850/2004/EC on persistent organic pollutants (POP)**  
Not listed.
  - **Restrictions according to REACH, Annex XVII**  
not listed
  - **Restrictions according to REACH, Title VIII**  
None.
  - **List of substances subject to authorisation (REACH, Annex XIV)/SVHC - candidate list**  
not listed

Olive oil Ph.Eur., virgin

article number: 8873

• Seveso Directive
